Welcome to Hercules Scaffolding Ltd's 1st Newsletter of 2009.

Cabot Circus, Bristol, Success for Hercules

Hercules Scaffolding was one of the main scaffolding contractors involved in the newly completed £500M shopping centre development for Cabot Circus. Hercules provided scaffolding for approximately 20 major retailers including New Look, JD Sports, Vodafone, Oakley, Cruise, Henleys, Piccolinos Restaurant, Game and the major new flag ship store Harvey Nichols.

Hercules is now also involved in the regeneration of Bristol's Broadmead, including scaffolding for the new HMV music Store.

Confined Space Entry Scaffolding

Hercules Scaffolding has commenced 2009 with a healthy order book for their Confined Space Entry Scaffolding team. Providing specialised Engineering & Scaffolding skills, Hercules Scaffolding Operatives are Confined Space Entry trained, both theoretical and practical, enabling the crew to work above or below ground in confined spaces using Compressed Air Escape Breathing Apparatus as part of the Planned Means of Self-Rescue. Certificates of qualification can be shown on request.

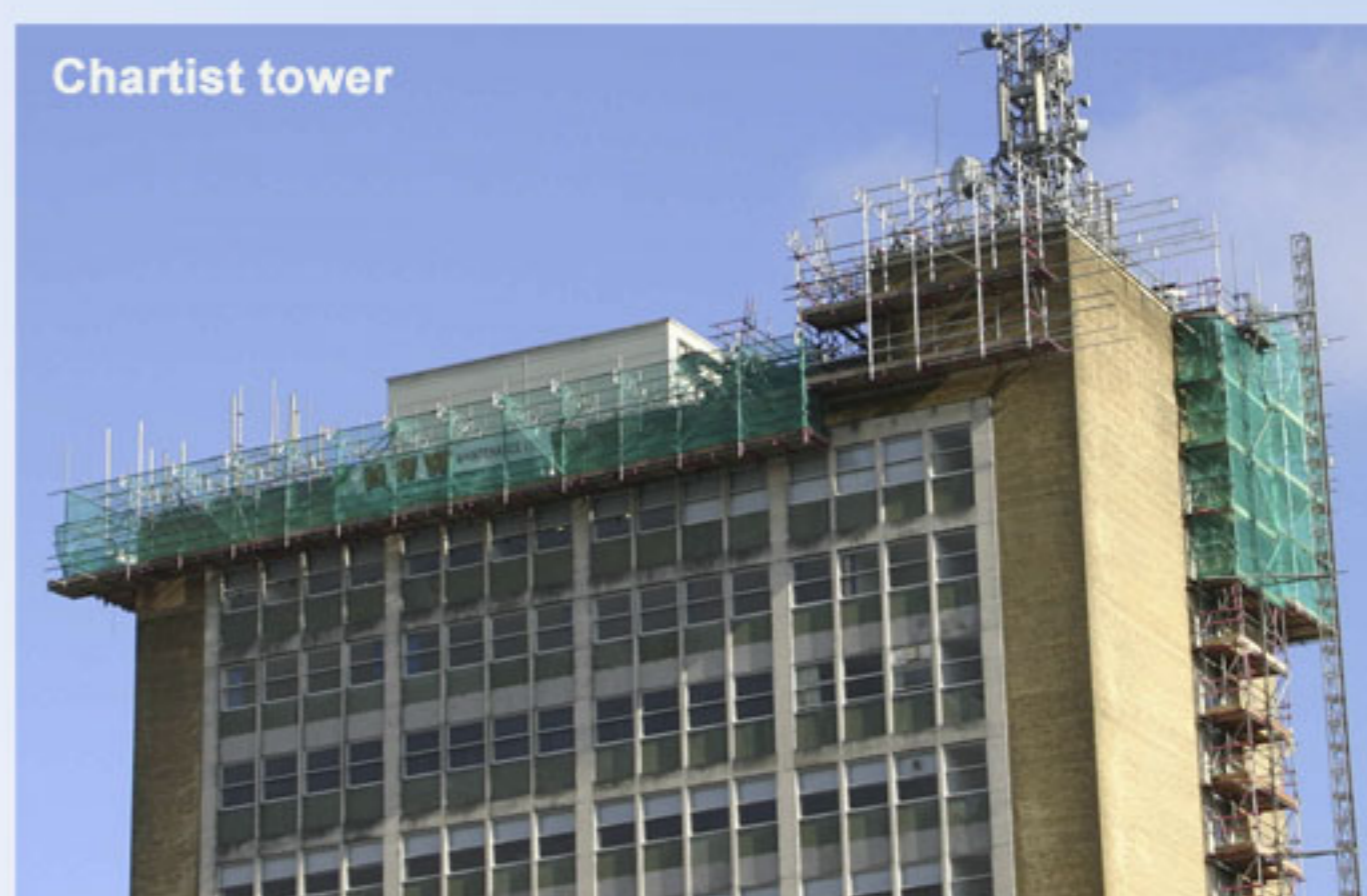

Current projects include:
Major Scaffolding Works for Utility Water Companies in the South West and London areas. Scaffolding has included scaffolding to Water Treatment Works and Sewage Pumping Stations. Please contact sales@herculesgroup.co.uk **0845 003 9089** to discuss any new project requirements.

Hercules Reaches New Heights.

As part of a major refurbishment to Chartist Tower, Newport, Wales, Hercules Scaffolding has been contracted to provide a 70m high scaffold with a 500KG Goods hoist. The project also includes a cantilevered parapet scaffold running the perimeter of the building. This enables refurbishment operatives to work safely on the exterior of the building under the parapet levels. The scaffold contract also includes the installation of crash decks above the roofs of the major retail outlets beneath Chartist Tower as part of CDM, Health & Safety and Design of the scaffold.

The project will run 22 weeks. Chartist Tower is recognized as a landmark in Newport City and is considered one of Newport's tallest buildings.

Please contact sales@herculesgroup.co.uk or Call us on 0845 003 9089 to discuss any new project requirements.

Work at Heights 2005; What You Should Know:

Please do not hesitate to contact Hercules for advice & information on any part of this subject.

The Regulations apply to all Work at Height where there is a risk of a fall liable to cause personal injury. Hercules can provide you our clients with solutions to meet all of your Work at Heights requirements & obligations. We offer a wealth of experience in the provision of standard & bespoke access solutions. These might include: Electrical & Mechanical installation, Heating & Ventilation installation, Maintenance work, Shop Fitting, Sign Installation, Painting & Decorating or Glazing.

Please see the HSE Work at Heights Guide PDF.

http://www.herculescaffoldinglondon.co.uk/pdfs/HSE_Work_at_Height_Guide.pdf

This guide summarises the duties the HSE place on employers, the self-employed, and any person who controls the work of others (e.g. facilities managers or building owners who may contract others to work at height) to the extent they control the work. What you must do as an employer:

Overriding principle. Regulation 6(3)

You must do all that is reasonably practicable to prevent anyone falling.

The Regulations set out a simple hierarchy for managing and selecting equipment for work at height.

- Avoid work at height where they can;
- Use work equipment or other measures to prevent falls where they cannot avoid working at height; and
- Where they cannot eliminate the risk of a fall, use work equipment or other measures to minimise the distance and consequences of a fall should one occur.

Please contact sales@herculesgroup.co.uk **0845 003 9089** to discuss any new project requirements.

Win an iPod 8GB Touch

To celebrate the New Year, Hercules Scaffolding is offering one lucky reader the chance to win an iPod 8GB Touch!

To improve the quality of our data base, we invite all of our readers to enter 4 new contact email address details within your organisation and or related business industry. This will include you in our March Draw for a new iPod 8GB Touch.

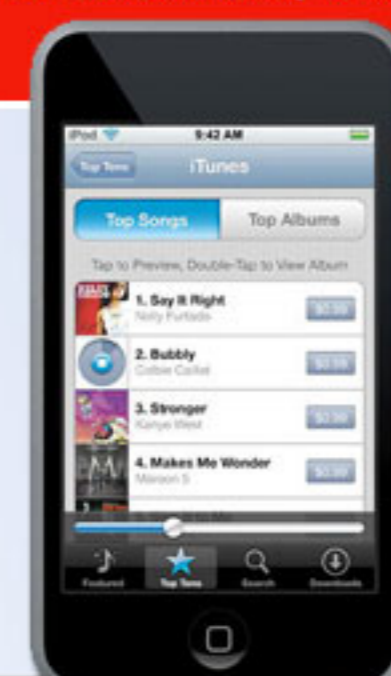

To enter simply reply to this newsletter by emailing sales@herculesgroup.co.uk with the 4 e-mail addresses. These will then be added to our newsletter data base.

The iPod Touch winner will be selected by an independent 1/3rd party and posted to the winner before the end of March 2009.

Data Protection: No details will be passed to a 1/3 party. The email addresses will be used exclusively for the Hercules Newsletter. Privacy Statement & Competition Rules apply.

Next months issue will include details on Hercules Scaffolding Ltd's:

- Scaffold Design & Calculations Service
- Completion of new VOSA Government Test Hall & Offices building
- MOD Abseiling Tower
- Focus Go Outdoor
- iPod Competition Winner Announced.

On time. On budget. Job Done.
